Dear Sirs

Client: Mr Wahhaj Raja GL17EMX
Vehicle: VOLKSWAGEN POLO MATCH EDITION

Further to your recent mail.

On review we would consider the salvage rate within our report as fair and reasonable considering the vehicles value, the repair costs exceeding the vehicle value, and the salvage category applied.

The TP rate will be based on their increased purchasing power/agreements with salvage agents, something the client will not be privy to on the open market.

We see no reason to deviate from our report.

Yours Faithfully
